IN THE ABSTRACT:

Amend the abstract as follows:

A method for a knowledge-based <u>survey-based</u> casino game. A first embodiment provides the <u>knowledge-based survey-based</u> casino game as a bonus game for an underlying casino game. A second embodiment provides a stand-alone <u>knowledge-based survey-based</u> casino game and a third embodiment provides back-and-forth play between a casino game and a <u>knowledge-based survey-based</u> casino game.
